SUMMARY

Mobile developer with 4 years of experience in **Android, Java and Flutter/Dart**. Responsible for developing and maintaining commercial applications (POS) with messaging system, integration of SDKs/APIs for different POSs, and a complex ecosystem composed of Windows, Android, Web and services, interconnected applications. Guided by principles of **Clean Code**, **SOLID** and architectural standards such as **MVC** and **MVVM**. Obsessed with learning and in constant search of evolution, with a collaborative spirit and attention to detail.

EXPERIENCE

- ❖ Mid-Level Developer, Sweda Mar 2025 — Current
São Paulo, SP
 - Development and maintenance of an ecosystem of price query terminals (**native Android**), with Java backend services using **Spring Boot** and **Flutter Web** portal, orchestrated via **Docker containers** and contribution to the creation of **RESTful APIs** for integration between systems.
 - Work on **Flutter** applications, applying state management practices (**Provider**), focusing on a responsive user experience (**UI/UX**).
- ❖ Junior Developer, Sweda Nov 2022 — Mar 2025
São Paulo, SP
 - Integration, deployment and approval of Android commercial application (POS) with **Stone POS SDKs/APIs**.
 - Acting in a distributed ecosystem with **ActiveMQ**, implementing asynchronous message exchange between the POS and back-office services (ERP), following the Pub/Sub standard.
 - Creation of a Self-Order Android app with modular architecture using **Fragments**, **Navigation Component**, **ViewModel** and good lifecycle management practices.
 - Integration of applications with **Firebase** (Crashlytics), contributing to the analysis of stability metrics and proactive reduction of errors in production.
 - Significant reduction of memory leaks in a production Android environment using the **LeakCanary** tool.
 - Development of unit, instrumented and automated tests with **Espresso**, ensuring coverage and stability in Android applications.
- ❖ Development Intern, Sweda Nov 2021 — Nov 2022
São Paulo, SP
 - Successful integration of mobile sales app (Flutter) with **OpenPix's** Pix API.
 - Participation in agile team (**Scrum**), using **Jira** for management and **Git** following good practices of versioning and **GitFlow**.
 - Creation of custom executable installers using **Inno Setup**, automating the distribution of applications in Windows environments.
 - Solid experience in **log analysis** for error tracking, collaborating in a great reduction in the number of crashes and improving reliability.

EDUCATION

- ❖ FATEC 2020 — 2024
Technologist in Systems Analysis and Development, Guarulhos, SP
- ❖ Wizard 2015 — 2019
English Course (TOEIC score: 720), Guarulhos, SP

SKILLS

Java, Flutter, Dart, Android, MySQL, Firebase, Docker, Spring Boot, ActiveMQ, JMS (Java Message Service), RESTful APIs, Git, Jira, Scrum.

LANGUAGES

English ❖❖❖❖❖ Spanish ❖❖❖❖❖
